

### **ATHLETIC ELIGIBILITY**

To ensure all athletes are physically eligible prior to participating in practice or a competition, the District has the following expectations.

1. No student shall ever practice or play without having documentation of a physical on file with the athletic director.
2. The only acceptable documentation of a physical will be the official WIAA Physical Card or WIAA Alternate Year Card. There shall be no substitute for the actual card regardless of grade level or sport competing in.
3. We must be assured that all coaches understand the importance of having this information on file. In specific, we must assure ourselves that lay coaches, who may not have the extent of training or the understanding of the expectations of working within a school district, understand the importance of this documentation.
