Administrative Rule: Lunch Collection

Written By: Jim Jones, District Administrator

Date: February 26, 2007

Food service prices shall be established annually by the Board of Education. In accordance with federal guidelines, the District shall offer free and reduced price food services to students who qualify.

Parents/Guardians are required to maintain a positive lunch account balance at all times. Students in grades K-12 without a positive lunch account will not be served a school meal unless the student brings daily meal payment.

Parents/Guardians will be mailed an account balance statement when their balance falls below \$25.00.

Students with a negative food service balance will have the option of being served an alternative meal provided by the District at no charge. The building principal shall be informed when a family account consistently has a negative balance so that a contact with the parent/guardian and/or human services can be made.

Staff members are required to maintain a positive lunch account balance for themselves at all times. No credit will be extended to staff members.

Any unpaid food service debt that is sixty (60) or more days past due may be referred to a collection agency or small claims for possible action. The District may delay such action when a parent/guardian agrees to eliminate the debt by making timely payments in accordance with an alternative payment plan.

The School District shall not discriminate in school-sponsored food service programs on the basis of age, sex, religion, color, handicap, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation, physical, emotional, or learning disability, or homeless status. Discrimination complaints shall be processed in accordance with established District procedures.
