RE: Administrative Rule: Athletic Eligibility

**TO: Lee LaFlamme, Athletic Director
Mark Carlson, High School Principal
Patrick Marion, Middle School Principal
Dave Ludy, Elementary Principal**

FR: Jim Jones

I understand that you will be making changes to our process in making sure that all athletes are eligible for competition prior to practicing. I thought it prudent to make sure that you are aware of the District's expectation, specifically regarding student athlete physicals. This letter shall be placed in the administrative rule book. In that way, all statements within it shall be on record as the expectations of the District.

I expect that the principals will work with Lee immediately to develop a plan where the District can be assured that all student athletes are properly eligible prior to participating in a game or practice. In developing this plan, you must take into account the following:

1. No student shall ever play or practice without having documentation of a physical on file with the athletic director.
2. The only acceptable documentation of a physical will be the official WIAA Physical Card or WIAA Alternate Year Card. There shall be no substitute for the actual card regardless of grade level or sport competing in.
3. We must be assured that all our coaches understand the importance of having this information on file. In specific, we must assure ourselves that lay coaches, who may not have the extent of training nor the understanding of the expectations of working within a school district, understand the importance of this documentation.

Thank You.
